

ANNUAL PROFECTIONS

• When a person is born they start from zero, at the sign that contains the Ascendant, which is the first house. This is a first house profecion year.

• When they turn one year old the profecion moves to the next sign in zodiacal order, which is the 2nd whole sign house.

• The profecion jumps one sign per year for each year of the native's life, and each sign repeats every 12 years.
